DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claims 11-23 are withdrawn in view of new considerations and interpretations of the claims. Rejections based on the claims, as newly interpreted, follow.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 2-4, 6-9, 11-12 and 13-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 2, the recitations of a "first storage location" and "a second storage location" do not define any structural limitations.

Regarding claim 11, the recitations of a "first storage space" and "a second storage space" do not define any structural limitations.

Regarding claim 12, the recitations of a "first storage space", "a second storage space" and "a third storage space" do not define any structural limitations.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Ponticelli [US 4,742,978].

Regarding claim 11, Ponticelli discloses an audio rack (15) for vehicle into which a plurality of electrical modules are insertable comprising:

- a “first storage space” (figure 1) for accepting a first electrical equipment having a first width size;
- a “second storage space” (figure 1) having a second width size that is smaller than the first width, wherein one of the first and second storages space disposed on top of the other (figure 1); and
- each of the first width and the second widths being uniform along the depth of the respective storage space (figure 1).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ponticelli.

Ponticelli discloses an audio rack (15) for vehicle into which a plurality of electrical modules are insertable comprising:

- a "first storage space" (figure 1) for accepting a first electrical equipment having a first width size;
- a "second storage space" (figure 1) having a second width size that is smaller than the first width, wherein one of the first and second storages space disposed on top of the other (figure 1); and
- each of the first width and the second widths being uniform along the depth of the respective storage space (figure 1).

Ponticelli discloses the instant claimed invention except for a third storage space located adjacent to the second storage space in the width direction.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to add an additional storage space in the rack of Ponticelli in order to accommodate additional components within the rack.

Allowable Subject Matter

8. Claim 2 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

9. Claims 3-4, 6-9 and 13-23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

10. Applicant's arguments with respect to claims 2-4, 6-9 and 11-23 have been considered but are moot in view of the new ground(s) of rejection.
